

Last update: March. 29, 2023

Yeonuk Kim (he/him/his), PhD

Institute for Resources, Environment and Sustainability,

The University of British Columbia| Vancouver Campus | Musqueam Traditional Territory

436-2202 Main Mall, Vancouver, BC, V6T 1Z4

+1-778-927-9959 (Canada)/ +82-10-9128-9996 (Korea)

Email: yeonuk.kim.may@gmail.com, yeonuk.kim@ubc.ca

ORCID: orcid.org/0000-0003-2993-8687; Researcher ID: ABC-2175-2020

Education

Ph. D. in Resources, Environment and Sustainability, The University of British Columbia, Canada. [2023]

Thesis title: Interactions between the land surface and the near-surface atmosphere: implications for evaporative demand and evapotranspiration under a changing climate.

BSc. in Rural Systems Engineering (Agricultural Eng.), Seoul National University, South Korea. [2016]

Thesis title: Interannual variations in methane emission from an irrigated rice paddy caused by rainfall during the aeration period.

Professional experience

Postdoctoral Research fellow, University of British Columbia (PI: Dr. Mark Johnson) [2023 – present]

Graduate Research Assistant, University of British Columbia (PI: Dr. Mark Johnson) [2017 – 2022]

Research Associate, National Center for Agro-Meteorology, South Korea [2016]

Undergraduate Research Assistant, Seoul National University (PI: Dr. Joon Kim) [2014 – 2015]

Teaching experiences

Module developer and delivery. Course: Ecohydrology of Watersheds and Water Systems (ENVR 420),

Guest lecture topic: Evapotranspiration theory and applications [2019 – present]

Mentor of Research Experience program (REX) for UBC undergraduate students [2022 – 2023]

Mentor of a graduate student project. Course: Artificial Intelligence for Social Impact (CPSC 532L) [2020]

Teaching Assistant. Course: Ecohydrology of Watersheds and Water Systems (ENVR 420) [2018]

Teaching Assistant. Course: Land, Food and Community 1 (LFS 250) [2017 – 2018]

Research interests

Climate change adaptation and mitigation, water-carbon-energy nexus, ecohydrology, biometeorology, land-atmosphere coupling, evapotranspiration, satellite remote sensing, and machine learning applications

Honors and awards

Graduate program

2020 – 2022. President's Academic Excellence Initiative PhD Award. UBC

2018 – 2022. Four Years Doctoral Fellowships. UBC

2017 – 2022. International Tuition Award. UBC

2017 – 2018. Faculty of Science Graduate Award. UBC

2019. Mitacs Globallink Research Award. Mitacs

2018. Award by President of Korea Water Resources Corporation. Idea contest for sustainable water management in South Korea

Undergraduate program

2017. Excellent Degree Thesis Award. College of Agriculture and Life Science, SNU

2016. Graduation with *Cum laude*, SNU

2015. Grand Prize (Award by President of SNU). SNU Undergraduate Research Program, SNU

2015. Evergreen Scholarship. SNU Evergreen Scholarship Foundation

2014 – 2015. Agricultural Engineering Scholarship. SNU Alumni Association of Agricultural Engineering

2011, 2014-2015. Merit Based Scholarship (Scholarship of Superior Academic Performance). SNU

2009. National Scholarship for Science and Engineering. Korea Student Aid Foundation

Research projects

Current projects

Improving Estimates of Evapotranspiration and Land Surface Relative Humidity Using Satellite-Derived Soil Moisture and Vegetation Optical Depth from SMAP-SMOS and Land Surface Temperature from Sentinel-3, C\$ 250,000 from *Canadian Space Agency*. **Co-Investigator** [2021 – present]

Previous projects

Agricultural Water Innovation in the Tropics (AgWIT) project funded by the EU Joint Call for the Water Joint Programming Initiative 2016, *Natural Sciences and Engineering Research Council of Canada*.

Graduate Research Assistant [2017 – 2020]

Constructing the foundation of core technologies for custom-made agricultural & forest meteorological services, *Korea Meteorological Administration*. **Research Associate** [2016]

Constructing the terrestrial ecosystem carbon database for the Carbon-Tracker-Asia improvement, *Korea Meteorological Administration*. **Undergraduate Research Assistant** [2015]

Development of time series database for CO₂ fluxes and investigation of ecosystem carbon dynamics, *Korea Meteorological Administration*. **Undergraduate Research Assistant** [2014 – 2015]

Journal referee

Earth's Future; Hydrology and Earth System Sciences; Journal of Hydrology; Remote Sensing of Environment; Agricultural and Forest Meteorology

Workshop and other activities

2019. Visiting PhD student (three months). Dr. Monica García's group at Department of Environmental Engineering, Technical University of Denmark

2019. Invited workshop participant. 2019 AmeriFlux Early Career Workshop, Boulder, CO, USA

2019. Workshop participant. CLM (Community Land Model) / CTSM (Community Terrestrial Systems Model) tutorial, National Center for Atmospheric Research (NCAR) Mesa Lab, Boulder, CO, USA

2016. Workshop participant. The International Workshop on Agromet and GIS Applications for Agricultural Decision Making (AgMP, WMO), Jeju, South Korea

PhD committee members

PhD supervisor:

Dr. Mark S. Johnson (Institute for Resources, Environment & Sustainability/ Department of Earth, Ocean, & Atmospheric Sciences, UBC)

PhD supervisory committee:

Dr. T. Andrew Black (Faculty of Land and Food Systems, UBC)

Dr. Sara H. Knox (Department of Geography, UBC)

Dr. Monica Garcia (Universidad Politécnica de Madrid)

Dr. Paulo Brando (Yale University)
