

Yeonuk Kim

Institute for Resources, Environment and Sustainability

The University of British Columbia | Vancouver Campus | Musqueam Traditional Territory
436-2202 Main Mall, Vancouver, BC, V6T 1Z4
yeonuk.kim@ubc.ca | <https://blogs.ubc.ca/ykim>

Education

Ph.D. in Resources, Environment and Sustainability, **The University of British Columbia** [2022]

Thesis title: Interactions between the land surface and the near-surface atmosphere: implications for evaporative demand and evapotranspiration under a changing climate.

Supervisory committee: Mark Johnson (supervisor), T. Andrew Black, Sara Knox, Monica Garcia, and Paulo Brando

BSc. *Cum laude* in Rural Systems Engineering (Agricultural Engineering), **Seoul National University** [2016]

Thesis title: Interannual variations in methane emission from an irrigated rice paddy caused by rainfall during the aeration period.

Supervisor: Joon Kim

Professional experience

Postdoctoral Research fellow, UBC (PI: Mark Johnson) [2022.12 – present]

Graduate Research Assistant, UBC (PI: Mark Johnson) [2017 – 2022]

Research Associate, National Center for Agro-Meteorology [2016 Fall]

Undergraduate Research Assistant, National Center for Agro-Meteorology [2014 – 2015]

Teaching and service experiences

IRES Departmental committee on Equity, Diversity, Inclusion and Indigeneity [2023.10 – present]

Module developer and delivery. ENVR 420: Ecohydrology of Watersheds and Water Systems,

Guest lecture topic: Evapotranspiration theory and applications [2019 – 2023]

Mentor of Research Experience program (REX) for UBC undergraduate students [2022 – 2023]

Mentor of a graduate student project. CPSC 532L: Artificial Intelligence for Social Impact [2020]

Teaching Assistant. ENVR 420: Ecohydrology of Watersheds and Water Systems [2018]

Teaching Assistant. LFS 250: Land, Food and Community 1 [2017 – 2018]

Research interests

hydroclimatology, biometeorology, ecohydrology, land-atmosphere coupling, evapotranspiration, satellite remote sensing, machine learning applications, and climate change adaptation and mitigation

Honors and awards

Graduate program

President's Academic Excellence Initiative PhD Award. UBC [2020 – 2022]

Four Years Doctoral Fellowships. UBC [2018 – 2022]

International Tuition Award. UBC [2017 – 2022]

Faculty of Science Graduate Award. UBC [2017 – 2018]

Mitacs Globalink research internship in Technical University of Denmark (DTU) [2019]

Award by President of Korea Water Resources Corporation. Idea contest for sustainable water management in South Korea [2018]

Undergraduate program

Excellent Degree Thesis Award. College of Agriculture and Life Science, SNU	[2017]
Grand Prize (Award by President of SNU). SNU Undergraduate Research Program, SNU	[2015]
Evergreen Scholarship. SNU Evergreen Scholarship Foundation	[2015]
Agricultural Engineering Scholarship. Alumni Association of Agricultural Engineering	[2014 – 2015]
Merit Based Scholarship (Scholarship of Superior Academic Performance). SNU	[2011, 2014 – 2015]
National Scholarship for Science and Engineering. Korea Student Aid Foundation	[2009]

Research projects

Current projects

Improving Estimates of Evapotranspiration and Land Surface Relative Humidity Using Satellite-Derived Soil Moisture and Vegetation Optical Depth from SMAP-SMOS and Land Surface Temperature from Sentinel-3, C\$ 250,000 from *Canadian Space Agency*. **Co-Investigator** on project and **Co-author** of grant proposal [2021 – 2024]

Previous projects

Agricultural Water Innovation in the Tropics (AgWIT) project funded by the EU Joint Call for the Water Joint Programming Initiative 2016, *Natural Sciences and Engineering Research Council of Canada*. Graduate Research Assistant [2017 – 2020]

Constructing the foundation of core technologies for custom-made agricultural & forest meteorological services, *Korea Meteorological Administration*. Research Associate [2016]

Constructing the terrestrial ecosystem carbon database for the Carbon-Tracker-Asia improvement, *Korea Meteorological Administration*. Undergraduate Research Assistant [2015]

Development of time series database for CO₂ fluxes and investigation of ecosystem carbon dynamics, *Korea Meteorological Administration*. Undergraduate Research Assistant [2014 – 2015]

Other professional development

Visiting PhD student. Dr. Monica García's group at Department of Environmental Engineering,
Technical University of Denmark (DTU), funded by Mitacs [2019 Summer]
Invited workshop participant. 2019 AmeriFlux Early Career Workshop, Boulder, CO, USA [2019]
Workshop participant. CLM (Community Land Model) / CTSM (Community Terrestrial Systems Model) tutorial,
National Center for Atmospheric Research (NCAR) Mesa Lab, Boulder, CO, USA [2019]
TA development program of LFS 250 course, UBC [2017 – 2018]
Workshop participant. The International Workshop on Agromet and GIS Applications for Agricultural Decision
Making (AgMP, WMO), Jeju, South Korea [2016]
